

12.8.2019

Muottituote Group Oy continues to grow

Muottituote Group Oy has finalised its new injection moulding facility and all machines are now in same building . New address for injection moulding factory is:

Metallitie 7, 26100 Rauma.

Muottituote has 30 pcs of injection moulding machines in the range of 20-1000 tn, so we are able to serve our customers in wide scale of plastic parts.

Jorma Kautto has been appointed as production manager for our Rauma tooling factory as of 12.8.2019 Jorma has long experience in different positions of tooling industry so he will strengthen our tooling operations in Rauma. Welcome Jorma to our team.
